

# Facts at a Glance

## ABOUT SPRINGSOURCE

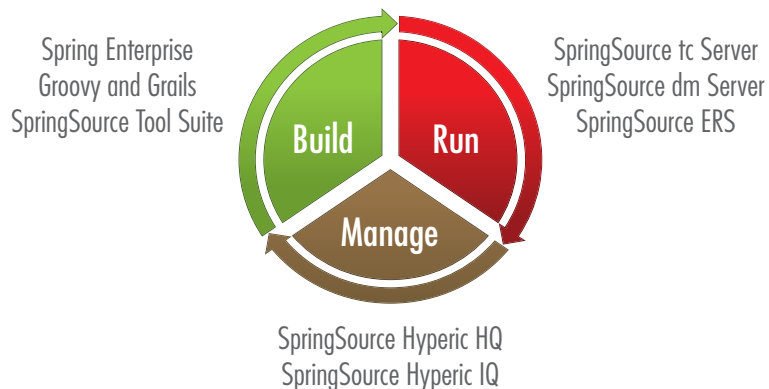

SpringSource provides a complete suite of software products that accelerates the entire **build, run, manage** enterprise Java application lifecycle. SpringSource employs the open source leaders who created and drive innovation for Spring, the de facto standard programming model for enterprise Java applications. SpringSource also employs the Java and web thought leaders within the Apache Tomcat, Apache HTTP Server, Hyperic, Groovy and Grails open source communities. SpringSource is at the forefront of rapid enterprise adoption of “lean software” that dramatically cuts cost and complexity, increases productivity, and accelerates the delivery of high-quality, business-critical applications.

## SPRINGSOURCE PRODUCTS

SpringSource forges this open source innovation into software products for the most demanding enterprise deployments. These products include:

- **Spring Enterprise:** A certified and supported version of Spring, the de facto standard programming model for enterprise Java, that is fully instrumented for detailed insight into health and performance of Spring applications.
- **Groovy and Grails:** Grails is a rapid web application development framework built on Spring and based on Groovy, a powerful dynamic language that seamlessly integrates with Java.
- **SpringSource Tool Suite:** The best and most complete set of Eclipse-based tools for creating Spring applications and next-generation OSGi-enabled applications.
- **SpringSource tc Server:** A certified version of Apache Tomcat hardened for enterprise use and coupled with key operational capabilities, advanced diagnostics and mission-critical support.
- **SpringSource dm Server:** A completely modular, OSGi-based Java server designed to run next-generation Java and Spring applications with a new degree of flexibility and reliability.
- **SpringSource ERS:** An enterprise-ready version of the popular Apache HTTP web server that provides better performance and security and improves service quality and scalability of web infrastructures.
- **SpringSource Hyperic HQ:** Monitors and manages your application infrastructure 24x7 ensuring the shortest downtime and immediate notification of performance degradation or service unavailability.
- **SpringSource Hyperic IQ:** Transforms the metrics that IT uses to manage and monitor the application infrastructure stack into reports and systems intelligence that business users can use to analyze, evaluate, plan and make strategic decisions.

## DELIVERING THE COMPLETE APPLICATION LIFECYCLE FROM DEVELOPER TO DATACENTER

### MASSIVE SPRING ADOPTION

Downloads for Spring have surpassed more than 5,000,000.

Spring is used by over 66% of all Java developers.

Spring is used by 9 out of top 10 banks.

Spring is used by 50% of Fortune 500.

### APACHE TOMCAT LEADERSHIP

Apache Tomcat is the world’s most widely used application server and SpringSource employees are responsible for 95 percent of the bug fixes to Apache Tomcat in the past two years.

### EXPLODING JOB REQUIREMENTS

Job listings for Java developers with Spring expertise now exceed listings for Oracle WebLogic and IBM WebSphere.

### STRONG CUSTOMER RETENTION

More than 96% of our customers renew our services each year.

### EMERGING TECHNOLOGY

SpringSource Hyperic named as 2009 “Cool Vendor” by Gartner analysts for its cloud deployment and management capabilities.

# Facts at a Glance

## SELECTED CUSTOMERS:

## ENTERPRISE SUPPORT

SpringSource provides enterprise support for open source projects including:

- **Spring**
- **Hyperic HQ**
- **Groovy and Grails**
- **Apache Tomcat, Apache HTTPD, Apache ActiveMQ, Other Apache Technologies**

## SPRINGSOURCE UNIVERSITY

The world's leading provider of educational services and certification for Spring, Apache, Hyperic, Groovy and Grails technologies. Thousands of enterprise technologists have taken advantage of SpringSource training to enhance their critical job and employment opportunities.

## BLUE-CHIP CUSTOMERS

Most of the Fortune 2000, including many of the world's largest financial institutions, retailers, manufacturers, healthcare, technology and public sector organizations, are SpringSource customers, including HSBC, Amgen, Toyota, Morgan Stanley, FedEx, Nokia, and General Electric.

## WORLD-CLASS MANAGEMENT

SpringSource has one of the most experienced management teams in open source today. The team consists of:

- **Rod Johnson**, CEO and "Father of Spring"
- **Rob Bearden**, President and COO
- **Adrian Colyer**, CTO
- **Nick White**, CFO
- **Mark Brewer**, Sr. VP of Enterprise Delivery
- **Shaun Connolly**, VP of Product Management
- **Peter Cooper-Ellis**, Sr. VP of Engineering and Product Management
- **Herb Cunitz**, VP of Worldwide Sales
- **Mitch Ferguson**, VP of Business Development
- **Steven Schuurman**, Sr. VP of Service Delivery
- **Javier Soltero**, CTO of Management Products
- **Matt Stodolnic**, VP of Marketing

## INVESTORS

SpringSource is a privately held company, with venture capital investment from Accel Partners and Benchmark Capital.

## WORLDWIDE LOCATIONS

Headquartered in San Mateo California, SpringSource has offices in locations throughout the world, including the United Kingdom, France, Canada, The Netherlands, Germany and Australia.
